GemOne®

Smart telematics for rental

Fleet management for mixed industrial fleets

The problems
we solve for rental

✓ Save time and resources **searching for machines** and **tracking their usage.**

✓ **Fix the inefficiencies** of collating fleet data from different telematics providers.

✓ End the burden that comes with a **lack of integration** between fleet tracking and other business software.

How we help
rental

Monitor your mixed fleet in real-time

Know **where** a machine is located, **when** it is being operated, and **when** it is due for maintenance.

Boost fleet efficiency

Gather insights which improve fleet composition, and facilitate remote monitoring for proactive maintenance.

Enjoy one solution for all makes and models

Easily **connect your entire fleet** to one single cloud platform and integrate this system into your existing rental software.

Our solutions for rental

Onyx:
Fleet management for mixed fleets

Monitor your rental fleet in real-time

Onyx helps you know where a machine is located, when it is being operated, and when it is due for maintenance.

GemOne Cloud:
The single source of truth for fleet data

Actionable business insights for your rental business.

SOFTWARE

Battery-powered tracker:
### A tracker with internal battery life of up to 10 years

Place this tracker on high value or non-powered assets such as containers and trailers to track their locations and enhance theft detection.
